# GOLFHOME.CH – SWITZERLAND'S GOLF PORTAL

GOLFHOME.CH has established itself as an indispensable golf medium, particularly among a younger, travel- and spending-friendly audience. The biweekly newsletter (15,000 subscriptions), Google search results and direct searches bring 20-30,000 visitors to the portal every month.

# OUR TOPICS – THE RIGHT MIX

## Travel

Play under the palm trees. Or fight the wind on a golf course on Scotland's coast. There is new ground for many golfers to discover even inside Switzerland or just across the border.

We at GOLFHOMÉ do a lot of traveling, and we love sharing what golfers from Switzerland can experience in other places.

By the way: With a "Sponsored Post" you have an appearance in the middle of the editorial articles.

# OUR TOPICS – THE RIGHT MIX

## Equipment

Which brand of clubs is best for me? Should I buy hybrids?  
How do I choose a ball?

We publicize new products, but we also provide decision guides, report on tests, and track which models got gold or silver. More complete and clear than anyone else in Switzerland, which is why our equipment pages are so popular and well linked via Google.

# OUR TOPICS – THE RIGHT MIX

## Sport

Rory and Nelly, but also Elena, Chiara, Beni and Joel. Those who do great things can be found on our pages. It doesn't have to be The OPEN, the Swiss Challenge or the VP Bank Swiss Ladies Open will do.

We provide the video highlights of the day or a story with an image gallery of the tournament. Just as it corresponds to our online platform and transports the emotions more authentically.

# OUR TOPICS – THE RIGHT MIX

## Swiss Scene

How does the new handicap system work? What club and non-club memberships exist? What can be seen at the golf fair, who is exhibiting?

Zurich instead of Orlando, Holzhäusern instead of Augusta is our focus because we are unique there.

# OUR TOPICS – THE RIGHT MIX

## Know-how

What is changing in the golf rules? What is the best warm-up?  
What should I do about my slice?

Videos demonstrate our golf teachers' tips much more clearly than the written word.

We created a quiz about the new golf rules in which our audience can test their knowledge in an exciting way and win attractive prizes.

We use the advantages of the online medium to convey the lesson to our audience in the most illustrative and entertaining way possible.
